

**FB-300**

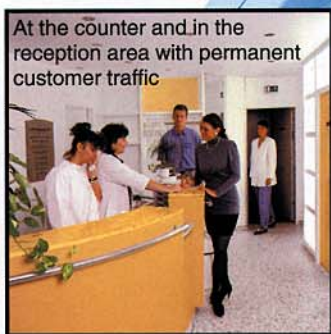

Multi-talented for increased productivity  
and reduced waiting times in the  
field of service!

Ideal for prescriptions  
and other forms

Savings  
books (up  
to 0.6 mm) and  
bank transfer forms

At the counter and in the  
reception area with permanent  
customer traffic

### A flat bed matrix printer for multifunctional use

- Automatic paper thickness scanning
- Original and up to 5 duplicates
- Is compact and takes up a minimal amount of space
- Poster typeface up to 8-times the height
- Parking function for changing between a continuous form and single-sheet paper
- Prints 17 barcode types

**Exact printouts by means of  
automatic paper alignment  
and margin recognition**

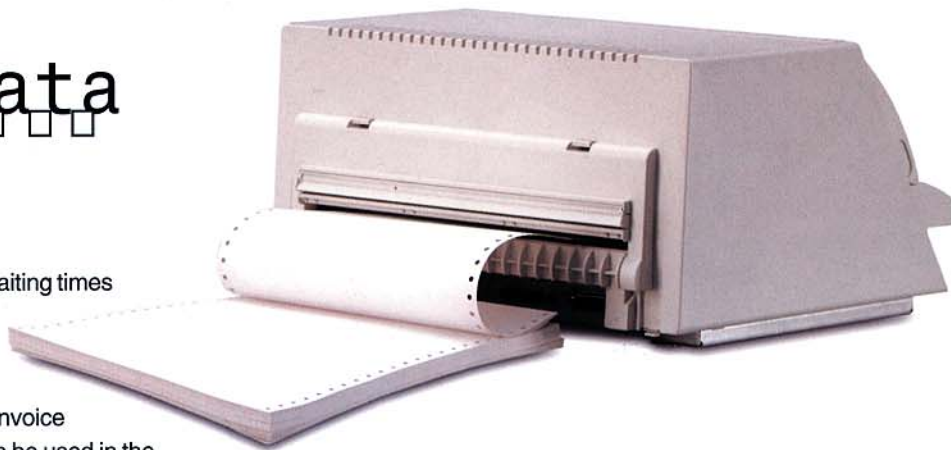

**SEIKO Precision**

# Technical data

## User-friendly for various operations

The FB-300 from SEIKO Precision ensures that waiting times in the area of service, for example, at the counter or in reception, are reduced to a minimum. At the same time, the scope of media that can be printed on ranges from normal DIN A4 paper and invoice sets to savings books. Thus, this matrix printer can be used in the most diverse business areas (including banking and insurance, medical practices, travel agents and manufacturing plants).

Its extremely practical paper handling avoids misprints and, thus, improves productivity and economic efficiency. An automatic paper alignment function also ensures a correct printout even if the paper has not been inserted straight. The automatic head gap adjustment, which immediately recognizes the thickness of the medium and creates an optimum print head position for a precise result, functions automatically. An optical reader recognizes the printer set up

parameters from a manually marked instruction sheet – it makes the set up procedure quick and easy.

## The price stands for enormous economic efficiency

The compact form and the unusually small amount of space the FB-300 takes up guarantee use in a tightly packed office environment. The life span of the print head of 400 million characters and that of the ribbon of 4 million characters facilitates such a reasonable page price that no comparable printer can be found on the market.

<b>Printing method</b>	24 dot matrix (flat bed)
<b>Print speed</b>	300 cps at 10 cpi draft, 110 cps at 10 cpi LQ
<b>Paper route</b>	Front feed and output
<b>Emulation</b>	EPSON® LQ 870 (ESC/PS without font scaling), IBM® Proprinter XL 24, IBM® 2390+ and OKI ML
<b>Print storage</b>	32 KB
<b>Driver</b>	"Plug & Play" recognition under WINDOWS 9x, driver for WINDOWS 3.1, 9x and NT 4.0, WINDOWS 2000
<b>Barcodes</b>	BCD, EAN-8, EAN-13, Code 11, Code 39, Code 93, Code 128, Postnet, Codabar, 2/5 Interleaved, 2/5 Industrial, 2/5 Matrix, UPC-A, UPC-E, MSI, ADD-ON 2, ADD-ON 5
<b>Fixed fonts</b>	Draft, Courier, Gothic, OCR-A, OCR-B, Script, Prestige, Boldface and Presentor
<b>Formats for continuous paper</b>	79–235 mm wide, 68.6 mm minimum length
<b>Formats for single sheets</b>	70–240 mm wide, 68.6–711.2 mm long
<b>Print media</b>	Cheques, bank balances, accounting vouchers, tickets, forms with stickers, prescriptions, bank transfers and invoices etc.
<b>Paper thickness</b>	Max. 0.60 mm
<b>Ribbon</b>	FB-30051 black colour ribbon cassette, life span: max. 4 million characters
<b>Print width</b>	Max. line length: single document: 9.4 inches, continuous form: 8.0 inches
<b>Interfaces</b>	Parallel: Centronics IEEE 1284 bidirectional, serial: RS232C, automatic recognition
<b>Mains supply</b>	220 V
<b>Power consumption</b>	Operation: 120 W, standby: 10 W
<b>Dimensions</b>	390 (W) x 390 (D) x 210 (H) mm
<b>Weight approx.</b>	14 kg
